Mexico

bananas
Portugal

pineapples
Costa Rica

cucumbers
Turkey

strawberries
Egypt

peppers
Morocco

beef

UK

Teacher note

These foods would be difficult to acquire without bees, so indirectly linked to the importance of bees.

dairy

UK

lamb

UK

pork

UK

wheat

UK

mushrooms

UK

potatoes

UK

sugar cane

India

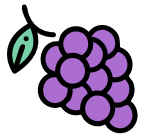

spinach

Spain

Teacher note

These plants are either pollinated by wind or self pollinating. In the case of mushrooms they grow from spores, not seeds. Fish obtain food through the aquatic food chain and do not require pollination to survive.

grapes

Italy

fish

bodies of water
