Activity

What are the human features and landmarks of the UK?

1. Fold your passport into booklet form. First fold the horizontal line —– then the vertical line.
2. For each landmark in your passport, follow these steps:

- use Google Earth to search for the landmark
- identify and write down the type of human feature it is (for example: statue, building, bridge)
- explore the landmark in 3D, look closely at its shape and details
- sketch the landmark in your passport
- write which country the landmark is located in (England, Scotland, Wales or Northern Ireland)
- read the fact box which pops up on Google Earth giving information about each landmark and write one fact on your passport

Cut this out to create a front cover for your passport.

My UK Landmark Passport
Name: Titanic Belfast
