

A town wants to build new houses on farmland to meet population growth.

For: This will reduce housing shortages.

Against: This will harm wildlife and reduce farmland.

A new railway line is being built to reduce traffic in the town.

For: There will be less traffic in the town.

Against: This will cut through a rural or natural area.

A coastal town wants to build hotels and attractions.

For: This will create more jobs and income.

Against: This will increase pollution and damage animals' natural habitats.

A town wants to build a wind farm on some open land.

For: This will help reduce climate change.

Against: This will harm wildlife.
