

What is the difference between weather and climate?

Write a summary of the **difference between weather and climate**.

Use the map of where crops are grown. Choose **four plants** and explain in which **climate and weather** they are best suited to grow. You can use an **atlas and the internet** to help you.

<p><u>Crop:</u></p> <hr/>	
<p><u>Which countries it grows in:</u></p> <hr/>	
<p><u>Climate and weather conditions:</u></p> <hr/> <hr/> <hr/>	

<p><u>Crop:</u></p> <hr/>	
<p><u>Which countries it grows in:</u></p> <hr/>	
<p><u>Climate and weather conditions:</u></p> <hr/> <hr/> <hr/>	

Crop:

Which countries it grows in:

Climate and weather conditions:

Crop:

Which countries it grows in:

Climate and weather conditions:

Explain how **weather and climate can influence farming.**
