Activity 1
‘Brilliant bones’ memory game

This is a game for 2 or 3 players.

The aim of the game is to find pairs that match the diagram of the bone with the label.

1. Place all the cards face down in either a random pattern or a more organised way (for example, the diagram cards face down on one side and the label cards on the other).

2. The first player turns over a picture card and a label card. If they match, they keep the pair and have another go. If the pairs don’t match, it is the next player’s turn.

3. Play continues until all the cards are matched.

4. The winner is the player with the most pairs.

If the cards do not match, turn them back over in the same place. As well as improving your knowledge of the bones in the body, this game is also a memory game!
